[Docket No. GP 95-6-000]

Robert F. White; Petition for Waiver

January 17, 1995.

Take notice that on January 9, 1995, Robert F. White (White), filed a petition seeking waiver of the obligation to refund to Williams Natural Gas Company \$17,765.05 (principal and interest) attributable to the working interest of Stephen Smith (Smith), and \$3,332.78 (principal and interest) attributable to the royalty interest of Diana Sprague (Sprague). The refunds result from the Commission's orders in Docket Nos. GP83-11 and RI83-9 requiring first sellers to refund Kansas ad valorem taxes they collected after June 28, 1988, if such amounts resulted in the collection of prices in excess of the applicable maximum lawful price under the Natural Gas Policy Act of 1978.

White states that he has refunded amounts attributable to other working interest owners from whom he has not yet received payment, but he has not refunded the amounts attributable to Smith's and Sprague's interests. White asserts that there is no possibility he will receive payment from Smith and Sprague since they are elderly, disabled and insolvent. Noting that the Commission's May 19, 1994, order in these proceedings reiterated that the Commission has the discretion to waive a refund if it is demonstrated that the refund is uncollectible due to bankruptcy or if equities warrant a waiver, White asserts that it would be grossly inequitable to require him to refund amounts attributable to Smith's and Sprague's interests since he never received the benefit of those amounts.

Any person desiring to be heard or to protest said filing should, on or before February 9, 1995, file a motion to intervene or protest with the Federal Energy Regulatory Commission, 825 North Capitol Street, N.E., Washington, DC 20426, in accordance with Sections 385.214 and 385.211 of the Commission's regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings.

Any person wishing to become a party must file a motion to intervene.

Secretary.

Stage II Comparability Study for the Northeast Ozone Transport Region—Announcement of Completion of Study and Notice of Availability

AGENCY: Environmental Protection Agency (EPA).

ACTION: Announcement of completion of study and notice of availability.

SUMMARY: Today's action provides notice that the Stage II Comparability Study for the Northeast Ozone Transport Region (OTR) required under the Clean Air Act (Act) is complete. This study provides emissions reduction estimates for Stage II vapor recovery controls (Stage II) and other commonly available stationary and mobile source control measures for certain areas in the Northeast OTR. States in the OTR may use this document to determine what alternative measures can provide comparable emissions reductions to Stage II for their areas.

EFFECTIVE DATE: The effective date of the completion of the Stage II Comparability Study is January 13, 1995.

ADDRESSES: To obtain a copy of the Stage II comparability study for the

Northeast OTR, please send requests to Carla Oldham, U.S. EPA, Office of Air Quality Planning and Standards (MD-15), Research Triangle Park, NC 27711. Telephone: 919-541-3347. FAX: 919-541-0824.

FOR FURTHER INFORMATION CONTACT: Carla Oldham, U.S. EPA, Office of Air Quality Planning and Standards (MD-15), Research Triangle Park, NC 27711. Telephone: 919-541-3347. FAX: 919-541-0824.

SUPPLEMENTARY INFORMATION: Section 184(b)(2) of the Act requires that EPA conduct a study to identify measures capable of achieving emissions reductions comparable to those achievable by Stage II in the Northeast OTR. Because serious and severe ozone nonattainment areas must adopt Stage II controls under a separate Act requirement (section 182(b)(3)), only moderate, marginal, and nonclassifiable ozone nonattainment areas, and attainment portions of the OTR have the flexibility to adopt a comparable measure instead of Stage II.

Dated: January 13, 1995.

Carol M. Browner,
Administrator.
